

solids Rotary Valve
Type SRVP-Protective System

**Rotary feeder for discharging and dosing, as protective system
acc. ATEX for products with dust explosion risk**

Advantages:

**Pressure shock resistant 13 bar g and flame propagation proof,
Protective system category 1 acc. ATEX-directive 94/9/EC,
Dust explosion category St2, zone 20 interior, dust explosion risk
permanent, long-term, oftentimes, zone 21 exterior,
with type examination test by notified body**

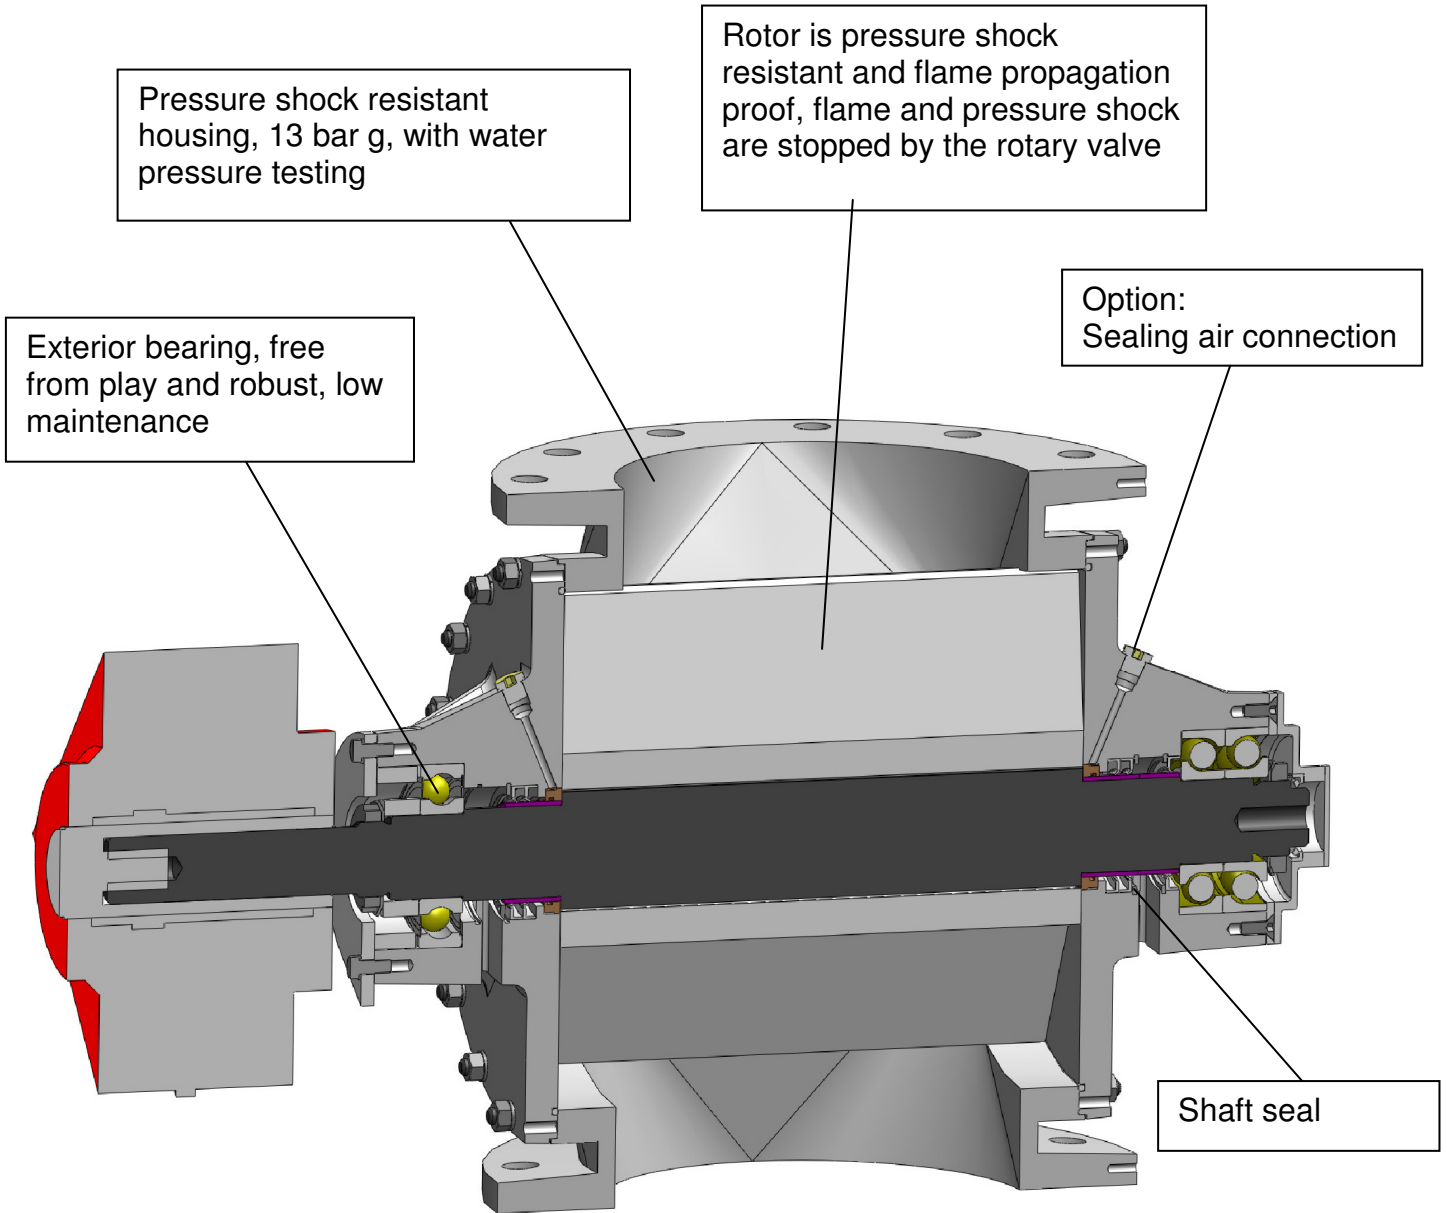

Identification:  | 1/2 D
